### APRIL IS OCCUPATIONAL THERAPY MONTH

Occupational Therapy (OT) offers assistance to individuals who face difficulty in eating, dressing, bathing, grooming, and transfers. OT provides Range of Motion (ROM) of the upper body and helps to increase balance and coordination. After an illness, injury, arthritis, developmental aging, or disability, OT also teaches independence in daily living by working on higher level ADL's such as cooking and cleaning in order for individuals to return to their home within their normal routine. Services are provided to our Rehab Department by Odyssey, which is one of the best the county has to offer. Pictured above are: (left) Lindsay Zirkle, OT Clinical Manager, (center) Lona Markley, OT, and (right) Justin Thompson Certified OT Assistant.
